Mayor said the 501©3 has been formed but the designation from the IRS has not been received.

Ms. Borders asked council if their main concern is getting the building stabilized.

Councilman Hayes stated no because there has not been any money raised for this project.

Much discussion continued.

Johnny Griffin said he thought the main hang up on raising money is that people do not see any work happening on the building. He added that once people see something happening to the building they will donate.

Mr. Griffin said the new owners have agreed to work with them on restoring this building. He said his goal is to save this building for the benefit of Gallatin.

Discussion continued.

Councilman Alexander said he applauded the efforts of Mr. Griffin and the others but at this stage it's too late to save the building.

Ms. Borders said she felt the hang up for people to donate to this project is they are waiting for the tax exempt designation.

Mr. Stuart said the building will have to be elevated because it's in the flood plain and he also had questions about the other attached building.

- Patrick Reeners of 317 Malone Drive said if council stopped adding toxic fluoride waste to the drinking water for 16 years at \$25,000 a year the city could pay their \$1 million.

Mr. Reeners said one of his problems with the city is that the city police are violating more laws than the citizens. He said the body and dash cams are not being recorded according to city policy. He said there are audio recordings that are supposed to be made to protect the police department and our citizens that are not being recorded. He said the police department is actually harassing the people they are supposed to be protecting.

Mr. Reeners said the city needs to help Randy's Record Company. He said to take the fluoride out of the water and put the money spent on it and pay for the Record Company.

Mr. Reeners said everyday he wants every dash cam, every body cam, every recording from every officer. He said if he didn't get those requests justice was being obstructed and he was going to the Federal Court House and pressing charges on the police.
